

MEDICAL SUPPLIES & PROTECTIVE GEAR

ZENDHealth.com   

ABOUT US

A Maryland based company founded by nurses, doctors and other medical professionals with the mission to better and more affordably protect people within and outside our profession. We design, manufacture and distribute high quality protective gear like masks, gloves, gowns, hazmat suits and face shields. We also provide simple medical equipment like infra red thermometers, and pulse oximeters.

Our mission is simple: provide better quality protection for medical professionals, small businesses operators, corporate employees in office buildings, and families at home.

During the COVID-19 global epidemic, we are addressing the nationwide increased demand of protective equipment and safety of citizens through our nationwide same day delivery, 24/7 support and additional sterilization of equipment.

MISSION

Better protection for all medical professionals, better safety for non medical citizens working in offices or general public areas, and affordable protection for families during infectious epidemics.
